

NEW: BenchVue Software

- Visualize multiple instrument measurements simultaneously
- Easily capture data, screen shots and system states
- Monitor and control your bench from mobile devices

BenchVue: Key Benefits

- Multiple instrument measurement visibility and data capture accelerates testing
- Easy viewing, capturing and exporting of measurement data and screen shots
- Integrated library feature improves measurement knowledge and reduces test setup time
- Simple point-and-click and capture operation speeds and simplifies common tasks
- Mobile app lets users monitor and respond to long-running tests from anywhere

BenchVue: Key Characteristics

- Data logging and strip charts for DMMs, power supplies
- Screen capture with annotation and trace data for oscilloscopes and spectrum analyzers
- Waveform select and output control for function generators
- Ability to drag and drop waveforms between an oscilloscope and function generator
- No programming or instrument drivers required

BenchVue and Supported Instruments

BenchVue Software Supported Instruments

Digital multimeters (7)	Function generators (13)	DC power supplies (18)	Signal analyzers (16)	Oscilloscopes (98)
34401A	33210A	E3631A	PSA E444x	MSO/DSO-X 2000 Series (12)
34405A	33220A	E3632A	ESA E440x	MSO/DSO-X 3000 Series (18)
34410A	33250A	E3633A	PXA N9030A	MSO/DSO-X 4000 Series (16)
34411A	33521A	E3634A	MXA N9020A	MSO/DSO 6000 Series (16)
34450A	33522A	E3640A	CXA E9000A	DSO/MSO 7000 Series (28)
34460A	33509B	E3641A	EXA N9010A	DSO/MSO 9000 Series (8)
34461A	33510B	E3642A	N93xx Series	
	33511B	E3643A		
	33512B	E3644A		
	33519B	E3645A		
	33520B	E3646A		
	33521B	E3647A		
	33522B	E3648A		
	33611A	E3649A		
	33612A	N6700A/B		
	33621A	N6701A		
	33622A	N6702A		
		N6705B

BenchVue: Digital Multimeters

Supported Functionality

- Measurement configuration
- Visualization & annotation
- Data Logging
- Exporting
 - Screen shots
 - Data
- Save/recall instrument state
- BenchVue Mobile

Supported Instruments:

- 34401A, 34405A, 34410A, 34411A, 34450A, 34460A, 34461A

BenchVue: Function Generators

Supported Functionality

- Waveform selection
- Instrument configuration
- Exporting
 - Instrument properties
- Save/recall instrument state

Supported Instruments:

- 33210A, 33220A, 33250A, 33521A, 33522A, 33509B, 33510B, 33511B, 33512B, 33519B, 33520B, 33521B, 33522B, 33611A, 33612A, 33621A, 33622A

BenchVue: Power Supplies

Supported Functionality

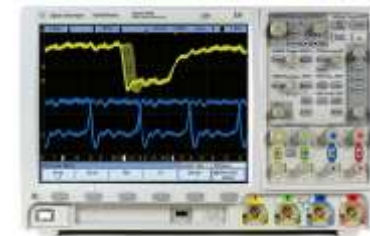

- Output Visualization
- Instrument configuration
- Exporting
 - Data
- Save/recall instrument state
- BenchVue Mobile

Supported Instruments:

- E3631A, E3632A, E3633A, E3634A, E3640A, E3641A, E3642A, E3643A, E3644A, E3645A, E3646A, E3647A, E3648A, E3649A, N6700A/B, N6701A, N6702A, N6705B

BenchVue: Oscilloscopes

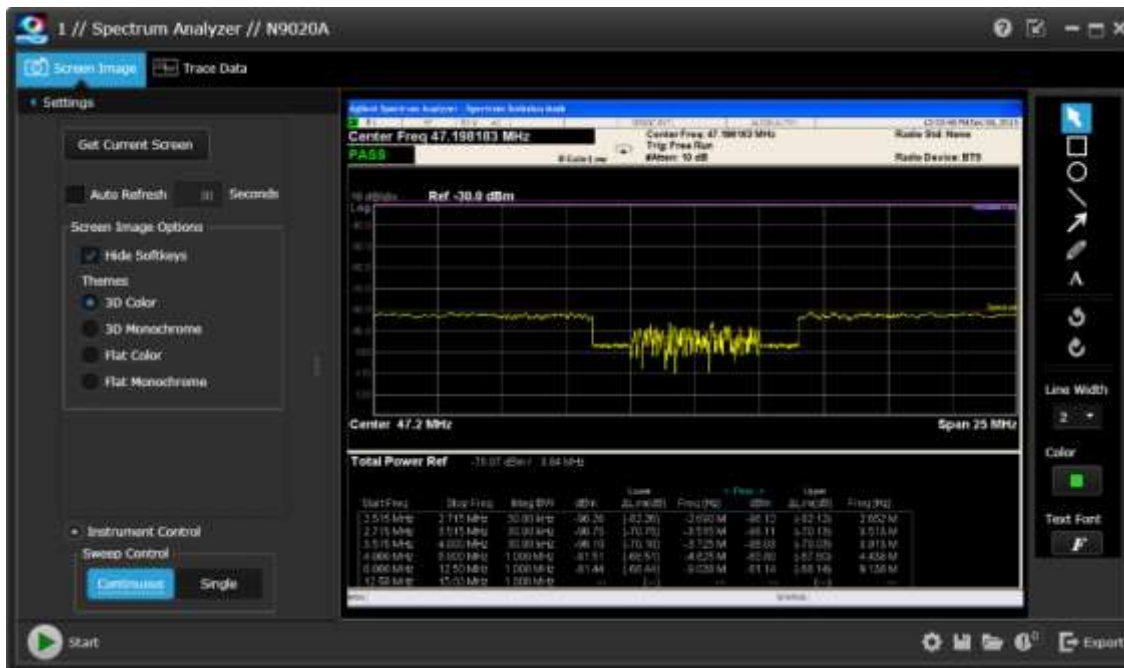

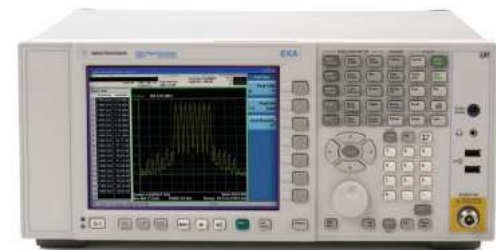

Supported Functionality

- Capture and annotate screen
- Capture trace data
- Exporting
 - Screenshots
 - Data
- Save/recall instrument state
- BenchVue Mobile

Supported Instruments:

- MSO/DSO-X 2000, 3000, and 4000 Series; MSO/DSO 6000 Series; DSO/MSO 7000 and 9000 Series

BenchVue: Spectrum Analyzers

Supported Functionality

- Capture and annotate screen
- Capture trace data
- Exporting
 - Screenshots
 - Data
- Save/recall instrument state

Supported Instruments:

- PSA E444x, ESA E440x, PXA N9030A , MXA N9020A, CXA E9000A, EXA N9010A, BSA N93xx Series
